GIVE SCHOOLS THE RESOURCES THEY NEED TO KEEP KIDS HEALTHY

There are an estimated 6.6 billion square feet of indoor public school space and more than 1 million acres of public school land in the U.S. which kids could use to run, play, and have a healthy lifestyle. Communities that incentivize shared use agreements unlock the doors™ to a solution that's a win-win for children, families, and schools.

LEARN HOW YOUR COMMUNITY CAN HELP SCHOOLS UNLOCK THE DOORS TODAY AT [URL PLACEHOLDER].
